THE ART OF LED LIGHTING

AURORA DIMMING

THE STORY OF
QALEDO-DESIGN

FROM RAW MATERIALS, WE CREATE PURE LIGHT

We design our light bulbs thinking about the warm and lovely atmosphere that could be created.

We attach great importance to the selection of high-quality materials crafted from their raw state.

The highest delicacy is for us essential to create bulbs diffusing an intense light, unique and warm.

It is why every single gesture is executed with the greatest finesse.

A rigorous monitoring and a particular attention is constantly being paid to the manufacturing process.

THE AURORA DIMMING

Our AURORA "dim-to-warm" LED bulbs are inspired by the first rays of the sunlight.

Our technology mimics every single light moment from sunrise to sunset in a magical way.

By simply dimming the lamp, you will change its color from warm white to an even warmer white, hence creating multiple light atmospheres with one lamp.

The lamp also forms a halo that reflects on the glass and creates a peaceful feeling.

COLLECTIONS

CLASSIC

MAGNA

ÆDEL

VINTAGE

PLATINA

OPAL

CLASSIC

COLLECTION

Back to its origin, the light bulb was pure and simple. These characteristics are the essence of the CLASSIC collection.

There is something mysterious, magical, alchemical when a glossy glass is born from a mixture of minerals. The sand is part of these minerals and inspired the CLASSIC collection.

Using our latest dimmable LED technology, we reshaped the light bulbs of the past, combining shapes, sizes and light intensity to offer you simple and pure light.

ENTAL

SPERO

ENKEL

IGNIS

ALVA

ENTAL

Designed to fit into tiny places, the ENTAL diffuses a warm and cozy light.

Perfect match with: table lamp or ceiling lamp

4W	440 lm	2000 – 2700K
E27 base	230 V	45 x 73 mm
AURORA Dimming	CRI 95	Transparent

SPERO

With an eye-catching filament structure, this captivating SPERO bulb diffuses the warmest light ever created.

Perfect match with: wooden wall lamp

4W	440 lm	2000 – 2700K
E27 base	230 V	95 x 135 mm
AURORA Dimming	CRI 95	Transparent

ENKEL

Like its Danish origin, the ENKEL is designed to be simple and pure.

Perfect match with: ambient lamp

5W	550 lm	2000 – 2700K
E27 base	230 V	60 x 102 mm
AURORA Dimming	CRI 95	Transparent

IGNIS

IGNIS represents the best combination between the classicism of the Edison bulb and the modernity of the unique flexible filament shape.

Perfect match with: table lamp or pendant lamp

4W	440 lm	2000 – 2700K
E27 base	230 V	64 x 139 mm
AURORA Dimming	CRI 95	Transparent

ALVA

The ALVA combines the tradition of the rounded shape bulb with the innovation of the vertical AURORA dim-to-warm filaments.

Perfect match with: wall lamp

5W	550 lm	2000 – 2700K
E27 base	230 V	125 x 175 mm
AURORA Dimming	CRI 95	Transparent

MAGNA

COLLECTION

MAGNA means huge in Latin. The collection is deemed to inspire people to accomplish great things as Carolus Magnus did when he became the first emperor of the Holy Roman Empire. As the lamps, he forced respect and inspired people with his presence and his powerful energy.

During this era, a precious material was often used: marble. The origin of this word means "resplendent stone". It represents the key element that inspired this collection composed of impressive light bulbs, self-sufficient by their magnificent sizes.

IMPERO I

With its impressive size, IMPERO I magnifies your interior with a sense of ultimate beauty.

Perfect match with: ambient lamp and combined with MAGNA bulbs from different sizes.

5W	550 lm	2000 – 2700K
E27 base	230 V	165 x 260 mm
AURORA Dimming	CRI 95	Transparent

IMPERO II

Endowed with a bigger size, the IMPERO II provides beauty and suggests a feeling of greatness.

Perfect match with: pendant lamp and combined with MAGNA bulbs from different sizes.

5W	550 lm	2000 – 2700K
E27 base	230 V	180 x 300 mm
AURORA Dimming	CRI 95	Transparent

LUMINA I

Curved filaments built into hand-made blown-glass, the LUMINA I impress by its size and modernity.

Perfect match with: pendant lamp and combined with MAGNA bulbs from different sizes.

5W	550 lm	2000 – 2700K
E27 base	230 V	180 x 250 mm
AURORA Dimming	CRI 95	Transparent

LUMINA II

LUMINA II turns your interior into a majestic place. Its huge size diffuses a harmonious and intense light.

Perfect match with: pendant lamp and combined with MAGNA bulbs from different sizes.

5W	550 lm	2000 – 2700K
E27 base	230 V	300 x 340 mm
AURORA Dimming	CRI 95	Transparent

HOLY

Crafted to inspire faith, the HOLY bulb creates the perfect harmony between light and meditation.

Perfect match with: pendant lamp and combined with MAGNA bulbs from different sizes.

5W	550 lm	2000 – 2700K
E27 base	230 V	180 x 340 mm
AURORA Dimming	CRI 95	Transparent

ÆDEL

COLLECTION

ÆDEL means noble in Danish. From this pure word, a whole collection was created, the ÆDEL collection.

For every single bulb designed, the inspiration came from the rock crystal in itself. In its raw state, this transparent white appearance stone represents purity and serenity, which makes it so beautiful.

The collection aims at combining elegant LED filaments with unique designs in order to magnify Nordic-like interiors.

PILA

Inspired by its Latin root, the PILA is a small column of light diffusing a harmonious light.

Perfect match with: table lamp

2W	220 lm	2000 – 2700K
E27 base	230 V	45 x 120 mm
AURORA Dimming	CRI 95	Transparent

FELIX

The FELIX shape is one of the most traditional yet timeless bulb shapes that provides a sense of comfort to everyone who sees it.

Perfect match with: chandelier

2W	220 lm	2000 – 2700K
E14 base	230 V	35 x 97 mm
AURORA Dimming	CRI 95	Transparent

STELLA

The filaments shaped in the STELLA aim at exploring every single light possibilities of the dimmable bulb.

Perfect match with: copper table lamp

4W	440 lm	2000 – 2700K
E27 base	230 V	70 x 120 mm
AURORA Dimming	CRI 95	Transparent

ASTRA

With its rounded and channelled shape, the ASTRA refracts light in many forms creating an uncommon atmosphere.

Perfect match with: wooden table lamp

5W	550 lm	2000 – 2700K
E27 base	230 V	125 x 175 mm
AURORA Dimming	CRI 95	Transparent

IRIGO I

With its unique slender shape, the IRIGO I is designed to surprise you, creating a pleasant atmosphere wherever it is placed.

Perfect match with: pendant lamp

3W	330 lm	2000 – 2700K
E27 base	230 V	30 x 180 mm
AURORA Dimming	CRI 95	Transparent

IRIGO II

Long and graphic, this graceful IRIGO II depicts singularity through its vertical design.

Perfect match with: pendant lamp

5W	550 lm	2000 – 2700K
E27 base	230 V	30 x 290 mm
AURORA Dimming	CRI 95	Transparent

VINTAGE

COLLECTION

Coming back to the days of our grand-parents, the VINTAGE collection is designed to bring back those good old times.

Through this collection, the design work consists of integrating state-of-the-art dimmable filament LED technology and recreating feelings and atmosphere of the past. Each light bulb has its own story and can be paired either with a table lamp, a pendant lamp or can even be used in chandeliers.

What makes the beauty of this collection is the covered gold colour which renders the light bulb more vintage.

CALI I

With its rounded shape and its DNA-like filaments, the CALI combines originality and modernity. Its intensity when turned out will remember you the atmosphere from the Colombian city of Cali.

Perfect match with: wall lamp

4W	400 lm	2000 – 2700K
E27 base	230 V	95 x 135 mm
AURORA Dimming	CRI 95	Gold

CALI II

The CALI II replicates perfectly the city of Cali atmosphere in a slightly bigger way than its little sister.

Perfect match with: wooden table lamp or pendant lamp

5W	500 lm	2000 – 2700K
E27 base	230 V	125 x 175 mm
AURORA Dimming	CRI 95	Gold

EZIO

Inspired by the famous opera *Seria* by Georges Frederic Handel, the EZIO has been crafted to make you dream and stimulate your imagination.

Perfect match with: table lamp or pendant lamp

4W	400 lm	2000 – 2700K
E27 base	230 V	64 x 139 mm
AURORA Dimming	CRI 95	Gold

NOCTIS

Combining an impressive filament structure with a look-a-like diamond shape, the NOCTIS is designed to create surprising lit space.

Perfect match with: table lamp

4W	400 lm	2000 – 2700K
E27 base	230 V	95 x 137 mm
AURORA Dimming	CRI 95	Gold

DESENDO

With its atypical shape and its pyramid filament assembly, DESENDO is designed to produce a serene and smooth light.

Perfect match with: wall lamp

5W	500 lm	2000 – 2700K
E27 base	230 V	120 x 306 mm
AURORA Dimming	CRI 95	Gold

PLATINA

COLLECTION

Inspired by platina, one of the rarest elements on Earth, the collection aims at exploring the possibilities offered by nature.

By combining pure light with a platinum outlook, the bulb in itself becomes a piece of art, even when the lamp is off.

All lamps in the PLATINA collection share two elements: the hand-crafted metallic finishing projected on the inner part of the bulb glass and our finest dimmable filaments empowered by the dim-to-warm technology.

IRIS

LUCERNA

SENSIO I

SENSIO II

NORI

IRIS

The most common bulb entirely revisited as an art piece combining the platina-like finishing with the filaments dim-to-warm revolution.

Perfect match with: ceiling or ambient lamp

4W	280 lm	2000 – 2700K
E27 base	230 V	60 x 102 mm
AURORA Dimming	CRI 95	Platinum

LUCERNA

The LUCERNA creates a warm atmosphere when dimmed while ensuring pure vision when turned on to its maximum.

Perfect match with: wooden table lamp

4W	280 lm	2000 – 2700K
E27 base	230 V	64 x 139 mm
AURORA Dimming	CRI 95	Platinum

SENSIO I

The SENSIO I releases a relaxing and peaceful light to balance your interior.

Best paired with: copper table lamp or pendant lamp

4W	280 lm	2000 – 2700K
E27 base	230 V	95 x 135 mm
AURORA Dimming	CRI 95	Platinum

SENSIO II

The beauty of the SENSIO II bulb is magnified by its outstanding spiral filaments diffusing a warm and smooth light.

Perfect match with: wooden wall lamp

4W	280 lm	2000 – 2700K
E27 base	230 V	125 x 175 mm
AURORA Dimming	CRI 95	Platinum

NORI

The NORI combines willowy LED filaments with an ovaloid shape inspiring elegance.

Best paired with: pendant lamp

5W	350 lm	2000 – 2700K
E27 base	230 V	100 x 220 mm
AURORA Dimming	CRI 95	Platinum

OPAL

COLLECTION

OPAL lamps have been around for long time, but the new dim to warm technology makes them really magnificent.

Without hurting the eyes when you look at them, the bulbs from the opal collection create a very beautiful atmosphere around them with a perfectly adjustable color to match the mood of the moment.

The new frosted surface of the opal bulbs makes them look like a piece of art even when the light is off.

FIONA

CALIGO I

CALIGO II

FIONA

The wonderful chandeliers from the great palaces were dreaming to have such a bulb for centuries. This fine opal with frosted surface combined with the beautiful halo of the FIONA lamp is simply magic!

Perfect match with: chandelier

2W	202 lm	2000 – 2700K
E14 base	230 V	35 x 97 mm
AURORA Dimming	CRI 95	Frosted

CALIGO I

The CALIGO I creates a warm atmosphere when dimmed while ensuring pure vision when turned on to its maximum.

Perfect match with: dark fixtures

5W	495 lm	2000 – 2700K
E27 base	230 V	95 x 135 mm
AURORA Dimming	CRI 95	Opal

CALIGO II

The CALIGO II provides the same warm atmosphere as its little brother. It is suited for larger fixtures in which the bulb takes a prominent place.

Perfect match with: dark fixtures

5W	495 lm	2000 – 2700K
E27 base	230 V	125 x 175mm
AURORA Dimming	CRI 95	Opal

ACCESSORIES

DIMMER EXTENSION CABLE

In many places people cannot take advantage of the great atmosphere created by our Dim to warm technology because the fixtures are not dimmable. The Dimmer extension cable is the easy solution to fix this problem. Just inserting it between the wall plug and the lamp, it makes suddenly available the whole magic of the dim to warm filament bulb range.

230V AC

OUR COMPANY

Founded by Belgian innovators and located in Brussels, we design, develop and manufacture elegant and innovative LED lighting solutions.

Our aim is to provide high quality and cutting-edge light bulbs that create unique light atmospheres.

Our daily work is based on creating a LED lighting that can be turned into an outstanding piece of art.

Every single customer is unique and must be considered in its own right. It is why, at Qaledo-Design, we give a great importance to scrupulously respect each need and expectation.

Due to their high quality, our bulbs can provide you with light for at least 30.000 hours, supported by a 3 year warranty.

Working constantly in collaboration with design experts, we are able to manage specific requests and to develop customized products.
